## PROJECTS

### NBFC(Non-Banking Financial Companies)

06/2025

- Developed a full-stack backend application for managing user loans and repayments in a Non-Banking Financial Company system.
- Implemented REST APIs for user registration, login, loan applications (multi-step), EMI calculation, admin loan approvals, and repayment tracking.

### Being-Rider 📄

07/2024

- Designed and developed a responsive website tailored for bike riders, providing detailed information about routes and must-visit places using HTML CSS and JavaScript.
- Implemented responsive design using Bootstrap and media queries, ensuring seamless functionality across mobile, tablet, and desktop devices.

### Foodie-Haven 📄

05/2024

- Designed and developed a responsive static website that provides information about various cuisines and food items.
- Utilized HTML for the structure and CSS for styling to create a visually appealing, responsive and user-friendly interface
